

The Project for Math 4425

This is a group or individual project. If it is a group project, you are allowed to have only two people. The project has to collect two time series data sets which they find interesting. At least one of time series should be monthly data. The following requirements have to be met:

1. The time series should be relevant to Hong Kong.
2. The time series should not be too short.
3. References from which you compile your data should be given.
4. Reasons should be provided why you would like to select this time series for your study.
5. Submit your findings in a well-written report.

Deadline: The project should be handed to me on or before 5:00pm, 24 May. 2024.
