

Assignment2

Paper Presentation

Feb 8, 2024

THE DEPARTMENT OF
COMPUTER SCIENCE & ENGINEERING
計算機科學及工程學系

香港科技大學
THE HONG KONG UNIVERSITY OF
SCIENCE AND TECHNOLOGY

Paper Presentation

- You will be assigned one paper related to medical image analysis. You are required to read it and make an oral presentation in class. You can find your **assigned paper** and **presentation date** on Canvas: Assignment2_Paper Presentation.
- Each student needs to finish this assignment **individually** and prepare an **oral presentation around 15 mins** (10 mins for presentation and 5 mins for Q&A).
- Please submit your slides via Canvas before **11:59pm, Feb 26**. TA will copy your files to the desktop of the computer in classroom.

Paper Presentation

- For each paper, we have the presentation (10mins) and Q&A (5 mins).
- Prestation skills and question handling capability will be evaluated.
- There is a formula for academic presentation:
 - Introduction/Overview/Background
 - Literature review
 - Key research question
 - Methodology/Solution
 - Experimental results and analysis
 - Discussion and conclusion

Some Tips

- State the key question/motivation clearly
- Identify the important ideas
- Organize the content logically
- Elaborate the supportive details
- Create visuals for facilitating understanding
- Significance/impact to the community
- Discussions and future directions
- Be considerate when answering questions
- Avoid reading your presentation
- Practice.

Q&A

Before asking questions, read the paper carefully first. Try to summarize a paper review:

- Summarize research background;
- Highlight key contributions;
- Elaboration on design/implementation/results/evaluation;
- Discuss the limits/improvements.

Questions to ask after the presentation:

- Think out of the box.
- Be humble and polite.
- You can also give insightful comments.
